

Barcelona **MACROECONOMICS** Summer School **BMSS 2010**

CREi 

Centre de Recerca
en Economia Internacional

INTRODUCTION

The twelfth edition of CREI's Barcelona Macroeconomics Summer School (BMSS 2010) will be held on the Ciutadella campus of Universitat Pompeu Fabra (UPF) in Barcelona between June 21 and July 2, 2010. BMSS 2010 will offer a variety of courses taught by recognized experts in their fields. The courses will cover recent developments in different areas of macroeconomics, including growth, international finance, monetary policy, and econometric methods. The courses are aimed at graduate students specializing in macroeconomics or related fields, as well as faculty members or researchers willing to brush up their knowledge of the field and expose themselves to the latest advances in academic research. During the courses, the BMSS faculty will be available to participants for discussion of research ideas and projects.

BMSS 2010 will take place on UPF's main campus, located in downtown Barcelona, at walking distance to the beach. In addition to the intellectual excitement, summer school participants are guaranteed to find in Barcelona cultural, music and sports events that suit every taste and pocket.

BMSS 2010 is organized by the *Center for Research in International Economics* (CREI), a research institute sponsored by the Generalitat de Catalunya and Universitat Pompeu Fabra, in fulfillment of its aim to promote the dissemination of research in macroeconomics and related areas. Further information about CREI can be found at <http://www.crei.cat>

We look forward to meeting you in our Summer School!

COURSES

Week 1 June 21 – June 25

Monetary Policy, Inflation and Unemployment

Instructor: Jordi Galí

Selected Topics:

- The New Keynesian model with sticky prices and wages
- Wage inflation and unemployment: theory and evidence
- Real wage rigidities and monetary policy trade-offs
- Labor market frictions, unemployment, and monetary policy

Dates: June 21 - 25

Time: Lectures: 11:00 – 13:00 h (10 hours)

Price: 600 Euros (Students: 400 Euros)

Measuring the Effects of Fiscal Policy

Instructor: Fabio Canova

Selected Topics:

- Fiscal shocks: empirical evidence
- Fiscal shocks in stochastic general equilibrium models
- Fiscal rules and debt feedback
- Fiscal and monetary policy interactions
- Fiscal shocks at the time of crises

Dates: June 21 - 25

Time: Lectures: 14:30 – 16:30 h (10 hours)

Computer demonstrations:

17:00 – 18:00 h (5 hours)

Price: 850 Euros (Students: 550 Euros)

Week 2 June 28 – July 2

Financial Crises and Depressions

Instructor: Hans-Joachim Voth

Selected Topics:

- The origins of bubbles and lending booms: past, present and future
- Depressions and credit booms gone wrong: credit linkages, multipliers and real effects
- Monetary policy and asset prices: how should central banks react to bubbles?
- Ruling out instability: what role for bank supervision and financial regulators?

Dates: June 28 – July 2

Time: 09:00 – 11:00 h (10 hours)

Price: 600 Euros (Students: 400 Euros)

Economic Growth and Development

Instructor: Xavier Sala-i-Martin

Selected Topics:

- The world distribution of income
- Growth, poverty and inequality: the role of globalization
- Neoclassical growth theory: the power of diminishing returns
- The effectiveness of international aid in promoting economic development. Randomized field experiments

- The role of incentives
- Government, taxation, the Welfare State and growth
- Ideas and growth: R&D, patents. AIDS, malaria and generics
- Africa: successes, failures, diagnostics and priorities

Dates: June 28 – July 2

Time: 11:30 – 13:30 h (10 hours)

Price: 600 Euros (Students: 400 Euros)

Asset Bubbles and Economic Policy

Instructor: Jaume Ventura

Selected Topics:

- Review of empirical research on asset prices and interest rates
- A macroeconomic framework to study the effects of asset bubbles
- The welfare effects of different types of bubbles
- Application (1): international propagation of financial shocks and global imbalances

- Application (2): credit booms, credit busts, and the current crisis

Dates: June 28 – July 2

Time: 15:00 – 17:00 h (10 hours)

Price: 600 Euros (Students: 400 Euros)

$$r_t = \rho + \phi_\pi \pi_t + \phi_x x_t$$

BIOGRAPHICAL SKETCHES

Fabio Canova earned his PhD in Economics at the University of Minnesota in 1988. He held academic positions at Brown University, Rochester University, the European University Institute, the University of Catania, the University of Modena, Universitat Pompeu Fabra and University of Bern. He has been a Research Professor with IGIER-Bocconi and Part-Time Professor at the University of Southampton and the London Business School. He is currently holding a Research Professorship with ICREA. He has taught courses at various summer schools, at the Bank of Italy, the ECB, the Bank of England, UK Treasury and UK Foreign Office, Riksbank, Bundesbank, Swiss National Bank, Banco de Argentina, Banco do Brazil, Bank of Spain, Banco do Portugal, Reserve Bank of South

Africa, Banco de Peru among other places and he has been a consultant at the Bank of England, the IMF, the ECB, the Bank of Spain and the Bank of Italy. He is a Research Fellow at the CEPR, a Research Associate at CREI, a Member of the CEPR Dating Committee, a Member of the Scientific Committee of the Euro Area Business Cycle Network (EABCN), a Member of the Advisory Board of Dynare, Program Director of the Budapest School for Central Banking Studies, Founder of the Applied Macroeconomic Network (AMeN) and Co-editor of the *Journal of the European Economic Association*. His research interests include quantitative macroeconomics, monetary theory, fiscal policy, international business cycles and macroeconometrics.

Selected publications:

- “Estimating Multicountry VARs”, (with M. Ciccarelli), *International Economic Review*, forthcoming.
- “Back to Square One: Identification Issues in DSGE Models”, (with L. Sala), *Journal of Monetary Economics*, forthcoming.
- “How much Structure in Empirical Models”, *Palgrave Handbook of Applied Econometrics*, 2008.
- *Methods for Applied Macroeconomic Research*, Princeton University Press, (Princeton, NJ), 2007.
- “Similarities and Convergence in G7 Cycles”, (with M. Ciccarelli and E. Ortega), *Journal of Monetary Economics*, 2007.
- “Price Dispersion in Monetary Union: the Role of Fiscal Shocks”, (with E. Pappa), *Economic Journal*, 2007.

$$\delta = \frac{1 - \sqrt{1 - 4\beta a^2}}{2a\beta} \in (0, 1)$$

Jordi Gali earned his PhD in Economics at the Massachusetts Institute of Technology (MIT) in 1989. Currently he is Director and Senior Researcher of the Center for Research on International Economics (CREI), a Professor at Universitat Pompeu Fabra and a Research Professor at the Barcelona GSE. He has held academic positions at New York University and Columbia University. He has been a Visiting Professor at MIT. He has served as a co-editor of the *Journal of the European Economic Association*, and is currently an associate editor of the *American Economic Journal-Macroeconomics* and the *International Journal of Central Banking*. He is a Research Fellow at the CEPR, a Research Associate at the NBER, and a Fellow of the Econometric Society. He was co-recipient of the 2005 Yrjö Janssen Award in Economics. His research interests include macroeconomics and monetary theory.

Selected publications:

- *Monetary Policy, Inflation and the Business Cycle: An Introduction to the New Keynesian Framework*, Princeton University Press, (Princeton, NJ), 2008.
- “Real Wage Rigidities and the New Keynesian Model”, (with O.J. Blanchard), *Journal of Money, Credit and Banking*, supplement to vol. 39, no. 1, 2007.
- “Monetary Policy and Exchange Rate Volatility in a Small Open Economy”, (with T. Monacelli), *Review of Economic Studies*, July 2005.
- “Monetary Policy Rules and Macroeconomic Stability: Evidence and Some Theory”, (with R. Clarida and M. Gertler), *Quarterly Journal of Economics*, January 2000.
- “The Science of Monetary Policy: A New Keynesian Perspective”, *Journal of Economic Literature*, December 1999.

Xavier Sala-i-Martin

earned his PhD in Economics at Harvard University in 1990. Currently he is Professor in the Department of Economics at Columbia University, and a Visiting Professor at UPF. He has been an Associate Professor at the Department of Economics at Yale University and Visiting Professor at Harvard University. He has also taught at Universitat Pompeu Fabra, Harvard University, New York University, Yale University and the International Monetary Fund, among other places. He is senior economic adviser to the World Economic Forum (WEF), author of the Global Competitiveness Report of the WEF, Research Associate at the NBER and has been consultant for the World Bank and the International Monetary Fund. In 2006 he was the President of FC Barcelona and he is now the President of its Economic Commission. His research interests include

economic growth, macroeconomics, public finance and social security, health and population economics, and monetary economics.

Selected publications:

- "The World Distribution of Income: Falling Inequality and Convergence, Period", *Quarterly Journal of Economics*, May 2006.
- "Determinants of Long-Term Growth: A Bayesian Average of Classical Estimates (BACE) Approach", (with G. Doppelhoffer and R. Miller), *American Economic Review*, September 2004.
- "The Economic Tragedy of the XXth Century: Growth in Africa", (with E.V. Artadi), in *African Competitiveness Report of the World Economic Forum*, September 2003.
- *Economic Growth*, (with R. Barro), 2nd Edition MIT Press, (Cambridge, MA), 2003.
- "Health Investment Complementarities under Competing Risks", (with W. Dow and T. Philipson), *American Economic Review*, December 1999.

Jaume Ventura

earned his PhD in Economics at Harvard University in 1995. Currently he is a Senior Researcher at CREI. Previously, he has held academic positions at MIT and the University of Chicago. He is co-director of the International Macroeconomics Programme of the CEPR and has served as editor of the *Economic Journal*. He is also a Research Associate at the NBER, and has served as a consultant to the IMF, the World Bank and the Inter-American Development Bank. His research interests include international economics and macroeconomics.

Selected publications:

- "Comparative Advantage and the Cross-section of Business Cycles", (with A. Kraay), *Journal of the European Economic Association*, December 2007.
- "Country Portfolios", (with A. Kraay, N. Loayza and L. Servén), *Journal of the European and Economic Association*, June 2005.
- "Current Accounts in the Long and Short Run", (with A. Kraay), *NBER Macroeconomics Annual 2002*, July 2003.
- "Trade Integration and Risk Sharing", (with A. Kraay), *European Economic Review*, June 2002.
- "A Portfolio View of the Current Account Deficit", *Brookings Papers*, July 2001.
- "Current Accounts in Debtor and Creditor Countries", (with A. Kraay), *Quarterly Journal of Economics*, November 2000.

$$\begin{bmatrix} x_t \\ \pi_t \end{bmatrix} = \omega_a [I - \rho_a A_T]^{-1} B_T \Delta a_t + \omega_g [I - \rho_a A_T]^{-1}$$

Hans-Joachim Voth earned his PhD in Economics at Oxford University in 1996. Currently he is ICREA Research Professor of Economics and Economic History at UPF. He is a CEPR Research Fellow, and a member of the editorial board of the *Journal of Economic History*. He has won the Gino Luzzatto Prize for the best thesis in European economic history, the Alexander Gershenkron Prize for best thesis on non-US topics, and a Leverhulme Prize for outstanding researchers under the age of 35. His work has appeared in the *Quarterly Journal of Economics*, *American Economic Review*, the *European Economic Review*, the *Journal of Economic History*, *Explorations in Economic History*, and in a book with Oxford University Press. He has held visiting appointments at Stanford, MIT, Princeton and Stern Business School (NYU). He has acted as an advisor to the German Finance Ministry's

Working Group on Financial Market Reform; to the CEO of the German Stock Exchange; and to the German Trade Unions Movement (DGB). His research interests are in financial and economic history and macroeconomics.

Selected publications:

- "Betting on Hitler: The Value of Political Connections in Nazi Germany", (with T. Ferguson), *Quarterly Journal of Economics*, May 2008.
- "Interest Rate Restrictions in a Natural Experiment: Loan Allocation and the Change in the Usury Laws in 1714", (with P. Temin), *Economic Journal*, May 2008.
- "Credit Rationing and Crowding Out during the Industrial Revolution: Evidence from Hoare's Bank, 1702-1862", (with P. Temin), *Explorations in Economic History*, July 2005.
- "Riding the South Sea Bubble", (with P. Temin), *American Economic Review*, December 2004.
- "With a Bang, Not a Whimper: Pricking Germany's "Stockmarket Bubble" in 1927 and the Slide into Depression", *Journal of Economic History*, July 2003.
