The workshop will run for 2 days and will take place on June 9-10, 2022, in Barcelona.

The purpose of the workshop is to discuss a selected number of research papers focusing on the study of monetary policy and other central bank policies. Topics of interest include, but are not restricted to, the role played by agents' heterogeneity and financial frictions, the challenges imposed by a zero lower bound on interest rates, international dimensions of central bank policies, the role of central bank communication, the design of optimal monetary policy, the central banks' decision-making process, etc. Both theoretical and empirical papers are welcome.

The deadline for submissions is **February 28, 2022**. To submit a paper, please use this link <https://app-summerforum.bse.eu/>. Submissions should include either a full paper or an extended abstract with the main results. Authors chosen to present papers will be notified approximately by the end of March. A preliminary program will be announced by the end of April.
