We would like to invite you to submit a paper to the workshop:

SAFETY, LIQUIDITY, AND THE MACROECONOMY

The workshop will run for 2 days and will take place on **June 10-11, 2024**, in Barcelona.

The keynote speaker is Arvind Krishnamurthy (Stanford GSB).

This workshop will focus on the role that safe and liquid assets play in the functioning of financial markets, and on how financial safety and liquidity interact with macroeconomic outcomes. We encourage both empirical and theoretical contributions on the following topics as well as related issues:

- Determinants of safety and liquidity of assets in financial markets
- The links between liquidity, safe assets, and the macroeconomy
- The role of safe assets and liquidity in financial market distress
- Pricing of safe assets and liquidity in financial markets
- Financial flows across countries and macro-financial outcomes
- The links between information in financial markets, asset prices, and the macroeconomy

The deadline for submissions is **February 28, 2024**. To submit a paper, please use this link <https://app-summerforum.bse.eu/>. Submissions should include either a full paper or an extended abstract with the main results. Authors chosen to present papers will be notified approximately by the end of March. A preliminary program will be announced by the end of April.

Please note that the BSE Summer Forum is a series of independent workshops. When you submit your paper, you will be able to see the topics and dates of all workshops that will take place within the Summer Forum. You can submit different papers to any workshop, but the same paper **cannot be submitted to more than one workshop**.

There is no registration fee, and meals during the workshop will be provided for participants. In principle, it is expected that the speakers will be covering travel and accommodation expenses but, if needed, some workshop funding support can be requested.

The workshop is funded by CREI through the European Research Council (ERC) under the European Union's Horizon 2020 Research and Innovation Programme (948432-INFOMAK) and by the European Union (GA 101116832-SAFECRISES).
